RE: Mason Contractors Ltd

TO WHOM IT MAY CONCERN

My engineering consultancy has been associated with Mason Contractors Ltd on a number of civil engineering projects over approximately 20 years.

Some of these projects being:

- Urban and rural subdivisions
- Roothing
- Bridges
- Drainage
- Site works
- Demolition

They have proven to be a competent and reliable company with a high level of business ethics, practices and personnel.

I would recommend Mason Contractors as a reputable civil construction company.

Yours faithfully
Kibblewhite Engineering Consultants Ltd
